Why would I choose this course over a college course?

This course would benefit anyone who didn't have the time to go on a college course that lasts up to 2 years to complete, 3 if your doing your level three too.

The Hairology Training Academy is now a VTCT training academy offering world class qualifications in Hairdressing. We aim to provide learners with a modern and fresh approach to hairdressing.

With having extensive knowledge in hairdressing education and owning salons we realised that most trainees that have been sent from original colleges come back to us with little or no practical ability. This has encouraged us into changing hairdressing courses to suit the demands of current trends and salons.

All learners who undertake our NVQ courses will leave our training centre salon ready! Completing every aspect of hairdressing to NVQ standard with our added extras, that we believe are important to gaining a successful career in hairdressing.

Q & A

The courses will include all standard NVQ syllabus with our specialised units e.g. curly blow training, balayage training, social media training and much more!

Our courses will give learners and anyone wanting to make it in the hairdressing industry the best and most current training available. All courses are tailor made to meet the standard that we obtain in our own salons.

Our class sizes are much smaller than any other college provider to ensure we can guarantee the care and attention each learner needs, giving students a much more comfortable learning journey. You will be Working with professional teaching staff from within the industry to help give relevant advice and guidance.

Our modern and fresh approach to learning will hopefully give the success to each one of our learners in their chosen career.

Do we get any salon experience with the course?

YES! We have very own salon located next to the training academy where we invite all our students to go and shadow our salon stylists to get a realistic approach to hairdressing. By the end of your course we will hope to have you working in the salon with our stylists learning to run a full column of clients correctly.

Do we need to bring models to work on?

We encourage our students to bring their own models and you will need to assist us with models to gain your NVQ however we also provide models for most of your course.

Can I apply for jobs after my level 2?

Yes. All of our NVQ certified courses result in a nationally recognised, government body award. These certificates will be what your future employer's request to see.

Your level 2 will qualify you as a hairdresser.

Your level 3 is more advanced techniques and most employers want stylist with both their level 2 & 3 qualification.

Qualified hairdressers have many career opportunities. After attending the Hairology Training Academy our students can go on to working within salons, TV and theatre, working for hair product manufacturers such as Matrix, train to be a hair loss consultant, teaching, management, sales, cruise-ships and of course opening their own salon's.

How many students do you have in a class?

We have up to 6 students per class. Most colleges have around 20-30 students in a class at one time.

TESTIMONIAL

I can not recommend Danielle and her staff at Hairology enough for teaching me and training me to do a variety of different hair extension methods.

I'm currently a self employed hairdresser and have been doing it for 7 years now and wanted to learn how to do hair extensions as it's something the salon and the area didn't offer.

I did my training with Danielle at the start of this year and my clientele for hair extensions has really took off in only a few months. Danielle taught me how to do Micro ring/ Nano ring / micro weft and Tape in extensions.

The team was very professional and went through everything with me step by step, from applying the hair to pricing and consultation.

Any questions I have had after doing my course, Danielle and her staff are quick to reply on any questions I have had.

100% recommend.

Thankyou for all your help and support and helping my business grow.

ENTRY REQUIREMENTS

We prefer our students to have A-C GCSE English and Maths grades however these are not always necessary. Also, if you have any industry experience this could work in your favour if you have done work experience in a salon or have part-time / Saturday work in a salon already.

As part of this qualification you are required to produce a portfolio of evidence. A portfolio will confirm the knowledge, understanding and skills that have been learned. It may be in electronic or paper format.
